

# Decayeux Handout Webshop

Shop URL (development)

staging.decayeux.de/shop/

Backend (administration)

staging.decayeux.de/shop/wp-admin/

## Admin products

In the backend click on **Products**, choose a product and click on **Edit**

The screenshot shows the WordPress admin dashboard with the WooCommerce interface. The left sidebar contains a menu with 'Products' highlighted. The main content area shows the 'WooCommerce / Products' page. At the top, there are buttons for 'Add New', 'Import', and 'Export'. Below this, there are three notification banners. The main product list table is visible, with columns for Name, SKU, Stock, Price, Categories, Tags, and Date. The first product listed is 'MySmartbox mit 4 Fächern'. A purple arrow points to the 'Edit' link for this product. Below the product name, there are links for 'ID: 14797 | Edit | Quick Edit | Trash | View | Duplicate'.

<input type="checkbox"/>	Name	SKU	Stock	Price	Categories	Tags	★	Date
<input type="checkbox"/>	 <b>MySmartbox mit 4 Fächern</b>	-	In stock	123,00 € - 1.234,00 €	Briefkastensys teme, MySmartBox	-	☆	Published 2020/10/27 at 11:09 am

change the shipping class here

ability to change the calculation of shipping costs administration under **woocommerce / settings**

# Product data **variable**

## Attributes

Here we can add attributes / options to our product that the customer later is able to choose from.

ability to add a custom attribute

- choose **Custom product attribute** (default)
- click **Add**

Name of the attribute

Values of the attribute divided by pipe |

- set the visibility on the product page for the customer
- check that this attribute is used for variations that the customer is able to choose from

## Variations

When you checked **Used for variations** in the **Attributes** tab you are then be able to use the attribute for product configurations and create **variants** of this product.

**add a variation** of attributes you defined earlier

- choose **create variations from all attributes**
- if you want to connect all attributes to each other

If you have chosen to create variations from all attr. every possible combination will be listed here.

If you add one manually you can here choose the attributes that should be valid for this specific variation

here you can change the product information for this specific variation and also change the tax and shipping class

## Add-ons

In Add-Ons you can add fixed additions to the product. For example if every variation of a product can have a camera for a fixed price you can add this option here and you don't have to add another variation and attribute for it.

please have a look at mysmartbox how it's done there
